and that he has endowed or proposes to endow the same with a donation of 6000 Rs, there is nothing to show that a Public Charity has been actually founded. In the absence of a deed constituting the trust or charity or of other documents to show that it is a completed trust, it is difficult to say what kind of trust or charity it is that has been established, whether it is Public or Private and whether it falls under the notification of the 12th Feb 08 or not. It is therefore suggested that donors be told to come to Govt for favorable rate of interest only after they have regularly constituted the charity evidenced with formal legal deeds or other documents.

The present endowment if otherwise complete seems to fall under rule 3 of the notified

The object is no doubt a Charitable one but the question is if it can be Considered a public object on which it is justifiable to expend money raised by general taxation. "Nothing must be carried out by means of public funds for the advantage of any individual or body of private persons unless in accordance with some declared or Established rule or principle recognised by Govt". This is the general rule in regard to expenditure from public funds and it is doubtful if the feeding of particular Castes or Classes is among the functions of Govt. If the benefit of the G.O. of 12.7.08 shd be extended to Cases like the present the financial liability involved by such extension would be unlimited and all existing Endowments or those that will be made hereafter will have to be shown the same Concession which will throw appreciable expenditure and responsibility on Govt.

I think in this case the deposit may be accepted at the favourable rate of interest. Govt may accept the proposal for management now suggested but should reserve to itself the power of control & supervision in such a way as may appear desirable in future. The object of the conversion being to stimulate charity great care should be taken that endowments already existing do not directly or indirectly take advantage of it.

What has become of my proposal to reserve to Govt the power to change the rate of interest to be allowed from time to time?
